

FALCON™ 60° CENTER OF GRAVITY TILT

Product Code: BFP

DESCRIPTION

The Falcon™ 60° Center of Gravity Tilt has been engineered for durability, reliability, and maximum flexibility to allow easy modification. This fixed frame system can be customized in almost any way that you can imagine and configured 'your way' Use Falcon's arms, legs, headrest, and back, or accessories from any other manufacturer. The 5" of forward movement as the seat tilts back maintains the center of gravity for optimal stability. The 60° of tilt guarantees maximum weight shift to the back and positions the feet above the heart providing circulatory benefits.
